

## Collaboration of Met-services within the East African Subregion

- Tanzania:
  - Exchange of experts
  - Trainings in NWP, QMS, instruments (e.g. radar, raingauges)
- Kenya:
  - WMO Regional training center
  - WMO Regional calibration center
  - WMO Regional Telecommunication Hub/Centre
- Burundi:
  - Benefits of Kenya's support in telecommunication
- East African Community
  - PR meetings to discuss needs of the subregion
- IGAD:
  - ICPAC (coordinate regional climate outlook fora) offers regional training courses
  -

## Suggestions for future collaboration

- Strengthening IGAD/ICPAC and other existing platforms and communicate more about their benefits to the countries
- Platform to discuss support needs and exchange technical expertise
- Regional WIGOS Centres might be appropriate for such topical discussion fora
- Moodle could be established similar to OSCAR
- Support existing platforms to operate sustainably
